

We believe in robust design and long-term performance. What others consider an option, we consider standard:

✓ Variety of safety items such as a redundant limit switch in hoisting.

/ Proven manufacturing processes according to ISO standards.

GH SERVICE
PARTNERSHIP

THROUGH OUR CUSTOMIZED INSPECTION
AND MAINTENANCE PROGRAMS, WE
GUARANTEE A FAST, EFFICIENT AND
PRECISE RESPONSE, AT ALL TIMES.

Our maintenance programs use advanced technology to determine the real time condition of your equipment, while exceeding OSHA standards on all makes of cranes and hoists. These processes will:

- Reduce operating and maintenance costs.

A map of the United States with state boundaries outlined in yellow. Three locations are highlighted in solid yellow: Dallas, TX (in the south-central region), Houston, TX (further south and west), and Frankfort, IL (in the midwestern region). Lines connect these highlighted areas to their respective labels: 'Dallas, TX', 'Houston, TX', and 'Frankfort, IL'. To the left of the map is an inset photograph of a large, modern industrial building with a dark roof and yellow accents, identified as the Dallas facility. To the right of the map is another inset photograph of a similar industrial building, identified as the Frankfort facility. Below the map, the text 'Manufacturing & Service' is displayed in a large, bold, black font.
